

KLOVE is an awesome radio signal (105.5 and 89.1) that benefits me and my family personally each day. They provide uplifting and encouraging programming that is a joy to listen to each day, throughout the entire day.

These signals provide the local community with the message of Jesus Christ and His Love to all, how all of mankind can be saved from their sins and have eternal life.

All people need to hear the message that this station provides so that they can and will be saved from their sins, if they give their life and put their trust and hope in Jesus Christ.
